

TELLURIDE

SKI & SNOWBOARD CLUB

October 21, 2011

Dear Alpine Athletes and Parents of TSSC,

As we all wait anxiously for the snow to fly, the coaches have been preparing for the upcoming season. Part of adequate preparation is having all the tools necessary for excellent performance, not only skis, but also the tools needed to care for skis. We would like to see athletes ages 12 and up preparing their own skis for practice and for races – alpine coaches are prepared to give demonstrations and help as necessary for those learning. We have compiled a list of tools and supplies necessary and supplementary for athletes' tool boxes for the season. **As such, we would like to put in a team order with high-end companies, like Holmenkol and Wintersteiger, by November 1.** While not all supplies on the list are necessary, they are strongly recommended, and with these companies' reputations, the tools will last many years.

We understand these are not the only manufacturer/provider of tuning/waxing supplies. There are a number of options on-line which may have better prices on a number of the items listed. We are more than willing to help you find options. What we need to keep in mind is Holmenkol is the only manufacture that provides us local representation and shows its support of our club by providing additional items at a very minimal cost to the club...items such as racing overlays, polishing felts/corks, wax additives, etc...so we can provide those items to our athletes at races. Wintersteiger is a new addition for us and we will order most of our tuning supplies from them, while we will order our wax from Holmenkol.

We can get pretty much anything you can imagine...tuning boxes, ski straps, base repair strips/tools, ski pole baskets, roto brushes, etc. If we have not listed something, please ask if we can get it...we can always add it to the order.

For ordering, please print the spread sheet below with the name of the athlete, and mark the quantity desired next to the items. Thank you for your consideration in purchasing these necessary supplies for the season. Let us know if you have any questions.

NAME:

DATE:

| ITEM | PRICE |
|---|--------------|
| Vice: | \$125 |
| Iron, dial temp control: | \$40 |
| Iron, digital temp control: | \$50 |
| Roto File Guide (must specify edge angle, 90 degrees-86 degrees): | \$35 |
